

Company Profile

Best Rainbow is a leading optical disc manufacturer with production plant located in Guangdong, PRC — the Maoming Gainfast Technology & Science Development Co. Ltd.

In 1992, the first production line of CD replication was installed. After years of development, Maoming Gainfast has production lines for all kind of optical disc manufacturing. We have production space of over 20,000 square meters & are employing over 400 experienced engineers & skillful workers. Today, the production capacity has been increased to over 30 million disc per month & is still expanding.

Maoming Gainfast is a Philips DVD+/-R disc licensed manufacturer in China & has also obtained ISO 9002 certificate since 2002 and ISO14001 since 2004. We are one of the best & largest optical disc manufacturers in PRC.
